

# How to use XtraProtect Food Safe

QAC-free sanitiser designed for food preparation areas. Certified to BS EN: 1276 and works with a 30 second contact time

## Ready to use product

Use with 750ml Spray bottle and standard spray nozzle

## Instructions:

For use on any food preparation and consumption surface.

Apply directly to surface and wipe clean with the XtraFibre cloth.

To clean to BS EN: 1276, allow a 30 second contact time before wiping clean.

## Heavy Soiling:

**To remove excess soiling, apply XtraProtect Foodsafe to the soiled area allowing this to soak before removing with the XtraWeb Agitator, once removed wipe the clean with the XtraFibre cloth.**
